

AGENDA ACTION ITEM

DATE: 2025-04-28

TO: Board of County Commissioners

FROM: Darryl Johnson, Public Works Director

ITEM TITLE: **Action Item – N500W Local Professional Services Agreement – Construction Engineering & Inspection Services**

Summary:

Approve Agreement for Civil Science to perform Construction Engineering & Inspection services for the N500W Road Reconstruction Project.

N500W is a Federal-aid project scheduled for construction this summer. Work is expected to begin late May/early June. This is a total road reconstruct & pave project. Federal-aid projects require that construction engineering & inspection services be contracted. Civil Science was selected through a committee that included Public Works, Road & Bridge and Commissioner James. Civil Science was the design engineer and will also be providing construction services.

Fiscal Impact:

Teton County is responsible for a 7.34% match on the Federal grant. The County paid its construction match of \$366,573 based on the engineer's estimate in 2023. The match includes construction costs and CE&I services. Since the match was paid in 2023, there is no effect to the FY2025 Budget.
