

Afternoon Randy,

I did a full review and found no fire related issues or concern for access or the proposed water source for suppression.

Thank you,

EARLE GILES, III

Deputy Fire Chief

Fire Marshal

Teton County Fire Protection District

Hi Earle,

Just checking back with you on this. Have you had a chance to review? Do you need any other information from us?

Randy

Subject: Daniel Highlands Subdivision

Earl,

I hope you are well.

Jade from the County asked us to send this to you for your review. This is a subdivision that is going through Preliminary Plat now. Could you please review this and let us know if you have any comments or questions.

In general all roads meet county standards (22' wide) and have 100' diameter turnarounds. Fire protection is provided by the fire pond as shown. Lots 5 and 6 will be accessed by a shared driveway. The driveway will be designed and built at the

 [21102_DANIELHIGHLANDS_CivilSet_flat_sm.pdf](#)

time of building permit and will need to meet county driveway standards and fire regulations regarding grade, width, and turnarounds.

Please let me know if you need anything else.

Thanks,

Randy Blough, PLA, ASLA, CLARB
