

Teton County Idaho

To whom it may concern:

Please accept my application for Board Membership for subdistrict number 3 for the Teton Valley Parks and Recreation District.

I reviewed the "Questions to Ask Yourself" list and can affirm positive responses in each case.

In particular, my motivation is as follows. I have lived in the valley for just over 3 years after retiring from a career in aerospace manufacturing. My first year in the valley, I taught math at THS seeing they needed a math teacher. I taught as an opportunity to participate more fully in the community. It was a rewarding experience. I am glad that I did it. I departed because I needed more flexibility to manage myself (I can describe more in an interview.) I want this community to continue to be a great place to live.

I now work part time (approx. 10 hours/week) doing cost analysis for MD Landscaping. Again mostly to be involved in the community. I enjoy the people with whom I work.

I have served on various boards both paid and volunteer (see resume). I know how to evaluate proposals and obtain appropriate follow-up information and I am able to make decisions.

The strongest characteristic for which I am known is working well with people from different backgrounds and experiences while getting work done.

I moved here with my wife and two youngest children (17 and 15). They love the community as well Together we have a vested interest in seeing Teton Valley succeed.

Thank you for your consideration.

Spencer Grant
