

AGENDA ACTION ITEM

DATE: March 25, 2024

TO: Board of County Commissioners

FROM: Darryl Johnson, Public Works Director

ITEM TITLE: **2024-03-25 PUBLIC WORKS REPORT**

The following items are for your review and discussion at the March 25, 2024, BoCC Meeting.

ROAD & BRIDGE

N500W - Road & Bridge has been wanting to grade this road as soon as possible. We were hoping that would happen last week, but the soft spots kept crews from opening the road up. We are hoping to grade once this next storm passes and things dry out a little more. Cones have been placed in areas where road damage is most significant.

Teton County was recently notified that our LHRIP application was successful. We will be receiving \$100,000 for Federal-aid math on this project. The County has 2 years to spend the funds. Hopefully this expedites construction.

PUBLIC WORKS

Roads Town Hall Meeting - In past years, Public Works has presented a standard Road Report at a Town Hall Meeting. The report provides some insight on where R&B funding comes from, maintenance efforts, construction costs and how we prioritize road projects. This year has been quite a whirlwind with attempts at updating the Official County Road Map and Plow Map. This is a good time of year to report on our road status. Would the BoCC be interested in a Town Hall Meeting? I would need some time to update my presentation but suggest if we are going to have a Roads Town Hall Meeting it be done early May.

Buxton Improvements - Bids were opened for the new SAR building on 3/21. The low bid was significantly more than our cost estimate and budget. I will discuss when I return from Spring Break with options on how to proceed.

WEEDS

Weeds Superintendent - Public Works is currently advertising for this vacancy.

SUGGESTED MOTION:
