

AGENDA ACTION ITEM

DATE: February 26, 2024

TO: Board of County Commissioners

FROM: Darryl Johnson, Public Works Director

ITEM TITLE: **ACTION ITEM: SOLID WASTE - FOAM TIRE PURCHASE FOR LOADER**

SUMMARY STATEMENT:

The Transfer Station recently purchased foam filled tires for the newly leased second loader. Solid Waste was hoping to not have to purchase a second set of new tires for the original loader. However, the tires are showing significant wear and we no longer think the tires will last until September. The FY2024 budget includes a \$50,000 budget in 223-00-80500 for foam filled tires. The first set of tires cost \$21,942.32. Claire & Dee's has committed to the same price for an additional set of foam filled tires.

FISCAL NOTES:

Proposed cost for the MXL e3/l3 foam filled tires from Claire & Dee's is \$21,942.32.

STAFF RECOMMENDATION: Approve

SUGGESTED MOTION:

Approve the purchase of mxl e3/l3 foam filled tires for the Transfer Station Loader from Claire & Dee's with the low bid of \$21,942.32. Tires to be paid from 223-00-80500
