RE: LH60 Loader Tires

It came to my attention that the Rock Dawg tires purchased in 2021 need to be replaced ASAP. We recently purchased new tires from Claire and Dee's Point S. I asked Scott Miller of Point S if the same services for the same price could apply to another set of tires if we asked for them in March, he said yes. A few weeks ago, Oswaldo Barrientos from Commercial Tire in Rexburg visited me onsite offering his services. I asked him for a quote to replace the aging Rock Dawgs.
